

CERTIFICATION - general information

DIALOG of Transformation® certificate is not just a document.

The Certification process takes up to 10 weeks

with two organization's audits.

When we complete the "checkup" your organisation will receive an audit report with recommendations and solutions. The summary will guarantee compliance with the ESG and CSR standards.

The certification process covers an analysis of:

- Your standards (we will check your policies, documents, image, trends, models etc.) Don't worry if you don't have any. We will help you to prepare it.

We Speak Business - Audit for NGO

We will check your potential with 2 companies to see how they see your organisation from a business perspective. Our business consultants will provide you with a summary of the process of assessing the organization's business potential. We will add the recommendations to our final report that is clear what is recommended for improvement to be business friendly. This is the part of the process for nonprofit organisations and public sector.

We speak NGO - Audit for Business

We will check your potential with 2 nonprofit organisations to see how they see your company from a social responsibility perspective. Our NGO consultants will provide you with a summary of the process of assessing the organization's social potential. We will add the recommendations to our final report that is clear what is recommended for improvement to be NGO friendly. This is the part of the process for business and public sector.

We Speak Business & We speak NGO - Audit for public sector

We will check your potential with 2 entities: 1 nonprofit organisation and 1 business to see how they see your governmental entity from a social responsibility perspective and business perspective.
